## Sole Comfort

**Valentino** has exclusively stepped into specially designed Business shoes particularly meant for the health conscious. The range of footwear is poised to be a hit with its finest designs with health benefits, keeping in mind the unhealthy effects of synthetic shoes. Synthetic shoes cause condensation on the surroundings of the foot giving you the feeling of wet feet. Valentino shoes are made from processed leather which prevents the foot from sweating giving you a restful feeling. Valentino shoes provide high density foam padding which avoids pinching and rubbing. The collection is meant to provide maximum comfort to people suffering from diabetes. It increases the blood circulation, provides relaxation and sensation in the feet. Priced between Rs.1699 and Rs.2499, the collection is available at all multi-brand outlets across India.
