The shoe brand launches a new corporate range to keep up their competitive curve. With an emphasis on comfort and high quality, Valentino shoes are made from a special material, which prevents the foot from sweating and leaves you feeling comfy. Their double PU cushion and high density foam padding prevents foot fatigue, pinching and friction. The brand has introduced new technology for the first time in the toe area that makes the shoe 100 per cent flexible for extra comfort. Be it for a formal business meeting or to celebrate your appraisal, these are a must-buy this season.
